

CAREER OBJECTIVES

Strategic and results-driven Product Manager with 4.2 years of experience in product ownership, business analysis, and product development, complemented by 11+ years in software testing and project management. Adept at transforming business goals into actionable product strategies, leading cross-functional teams, and delivering seamless digital experiences.

Skilled in Agile methodologies, stakeholder engagement, and workflow optimization, with a proven track record in digital publications. Experienced in managing product lifecycles, defining clear product **vision**, and developing **roadmaps** that align with business objectives and user needs. Proficient in leveraging data-driven insights to drive innovation, enhance customer satisfaction, and achieve sustainable growth.

Committed to fostering collaboration, optimizing workflows, and executing strategic initiatives that position products for long-term success in dynamic environments.
